PROFESSIONAL SUMMARY

Senior Frontend Developer with over 7 years of experience in creating and implementing web applications. Proven expertise in using JavaScript frameworks to build responsive, user-friendly interfaces. Passionate about optimizing web performance and ensuring a seamless user experience. Seeking to leverage my technical skills and commitment to collaboration in a challenging role.

SKILLS & ABILITIES

- Proficient in React-based frontend development
- Experience in component-driven development approach
- Collaboration with UX/UI designers
- Team management and project delivery
- Implementation of unit and integration tests
- Knowledge of modern frontend development tools like Webpack and Babel
- Responsive, mobile-first web application development
- Website performance optimization
- Experience in designing and implementing RESTful APIs
- Ability to work closely with backend developers

WORK HISTORY

AZUMO - SAN FRANCISCO, CALIFORNIA, US

SENIOR FRONTEND DEVELOPER

06/2022 – 10/2024

- Architected and implemented a new React-based frontend for a high-traffic e-commerce platform, resulting in a 35% increase in page load speed and a 20% increase in conversion rates.
- Championed the adoption of a component-driven development approach, leading to a 30% reduction in code duplication and a 15% increase in development speed.
- Collaborated with UX/UI designers to create intuitive, user-friendly interfaces, improving user satisfaction scores by 25%.

FRONTEND TEAM LEAD

05/2021 – 05/2022

- Managed a team of 4 frontend developers, successfully delivering 10+ major projects on time and under budget, while maintaining high code quality standards.
- Implemented a comprehensive suite of unit and integration tests, reducing production bugs by 40% and improving overall system stability.
- Introduced modern frontend development tools and practices, such as Webpack and Babel, increasing team productivity by 20%.

GLORIUM TECHNOLOGIES – PRINCETON, NEW JERSEY, US

FRONTEND DEVELOPER

01/2020 – 04/2021

- Contributed to the development of a single-page application using Angular, which improved user interaction speed by 50% and increased customer satisfaction scores by 15%.
- Automated testing processes using Jasmine and Karma, reducing manual testing time by 40% and increasing overall code reliability and deployment frequency.
- Participated in cross-functional teams to integrate RESTful APIs, enhancing data retrieval efficiency and reducing server response times by 20%.

JUNIOR FRONTEND DEVELOPER

05/2018 – 12/2019

- Developed a responsive, mobile-first web application for a major client, leading to a 50% increase in mobile traffic and a 30% increase in overall user engagement.
- Optimized website performance using advanced frontend techniques, resulting in a 60% decrease in page load time and a significant improvement in SEO ranking.
- Worked closely with backend developers to design and implement a robust RESTful API, improving data efficiency and speed by 25%.

INTERN - FRONTEND DEVELOPER

07/2017 – 04/2018

- Performed rigorous testing to identify and fix over 60 bugs within the front-end application.

EDUCATION

Bachelor of Science | Software Engineering

06/2017

DEPAUL UNIVERSITY – Chicago, United States

- Relevant Coursework: Data Structures, Software Testing and Quality Assurance, Object-Oriented Software Development, Agile Software Development, Software Architecture
- Honors: Cum Laude, Dean's Honor List (2015, 2016)
